All Solutions for Insurance Companies

Water Leak Damage Detection and Prevention

PREVENT YOUR NEXT WATER LEAK DAMAGE

THE CHALLENGE

The Insurance Industry has long struggled with the high number of water damage claims stemming from leaks and floods. As many as one in fifty property owners will encounter a pipe break, overflowing toilet or any of the other plumbing crises that occur in residential or commercial properties each year.

THE RESULT

an average claim reaching \$10,000 to cover plumbing repairs, mold remediation and renovations, the insurance industry can no longer afford to wait until the water starts to drip. Leading insurance companies are dealing head-on with reducing water leak damage claims by forming a partnership with Triple+.

Triple+

- Triple+ central monitoring station sends alerts through APP or computer when leaks, abnormal water usage or low battery levels are detected and has remote action capability.
- Detects water leaks in areas prone to leaks and floods including machine rooms, elevator shafts, risers and central water heaters, fan coils, basements and parking areas.
- Wireless and needs no infrastructure to operate.
- All devices are installed in reinforced enclosures to meet harsh environmental conditions when located outdoors.
- System provides notifications in real-time, immediate alerts.

Triple+ Smart Systems

About Us

Triple+ is an innovative and leading manufacturer and marketer of products and services within the IoT (Internet of Things) arena. Triple+ offers ground-breaking solutions for water leak damage prevention in small to large-scale properties.

OUR GOAL To protect the property of our residential, commercial and property management customers, as well as prevent costly water leak damages, increase operational efficiency and improve personal safety.

Wear and tear, frozen pipes, overflow and careless water usage in residential and office buildings, smart irrigation and water leak prevention, are the main causes of water damage. Billions are spent annually in fixing damages caused by water leaks and the tremendous waste of water is something we can't afford to happen as droughts occur more frequently. Damp conditions also breed mold spores which are a health hazard.

WHAT WE SOLVE

OUR MARKET-PROVEN SOLUTIONS & SERVICES

The **Triple+** line of products is based on proprietary technologies. This includes battery operated, wireless water leak sensors, repeaters, irrigation controllers, hubs and shutoff units that enable the automated control of water. The **Triple+** Central Monitoring Station is the only service of its kind in the market to protect an unlimited number of systems from a single dashboard.

OUR PARTNERS Leading insurance and property management companies, plumbing firms and HVAC contractors have already partnered with **Triple+** to reduce the number of incidents and high cost of water leak damage.

Triple+ end-to-end services are available worldwide and the company holds offices in the USA, Canada, Russia and Israel.
