ALL IN ONE

Saves Water and Prevents Damage

Water Leak Damage Detection and Prevention

Triple+

Triple+ NWL™

ALL IN ONE

The Triple+ NWL™ All-in-One was designed to protect your home against water leaks damages caused by the water heater. The Triple+ NWL™ All-in-One is a battery operated shutoff unit placed on the cold water pipe feeding the water heater. Triple+ NWL™ All-in-One has a 10ft. cable with a water flood detector at its end.

As soon as a leak is detected by the water flood detector, the shutoff unit will close the water income to prevent water flood damages.

The Shut Off unit is installed on the main water supply pipe and controls the water flow within the pipeline. Using standard plumbing adapters, the unit can interface various pipe diameters.

Certification: NSF372
Thread: ¾" NPT
Dimensions (in): 49x40x29
Weight (oz): 26.1
Power supply: CR123x2
Batteries Operating Voltage: 3V
Battery life time: Up to 4 years
Flood Sensor: 10Ft.
Cable Standards: ISO 9001 Operating
Temperature: 32F° / 122F°

the main pipeline**

Water Leak Damage Detection and Prevention

About Us

Triple+ is an innovative and leading manufacturer and marketer of products and services within the IoT (Internet of Things) arena. Triple+ offers ground-breaking solutions for water leak damage prevention in small to large-scale properties.

OUR GOAL To protect the property of our residential, commercial and property management customers, as well as prevent costly water leak damages, increase operational efficiency and improve personal safety.

Wear and tear, frozen pipes, overflow and careless water usage in residential and office buildings, smart irrigation and water leak prevention, are the main causes of water damage. Billions are spent annually in fixing damages caused by water leaks and the tremendous waste of water is something we can't afford to happen as droughts occur more frequently. Damp conditions also breed mold spores which are a health hazard.

WHAT WE SOLVE

OUR MARKET-PROVEN SOLUTIONS & SERVICES

The **Triple+** line of products is based on proprietary technologies. This includes battery operated, wireless water leak sensors, repeaters, irrigation controllers, hubs and shutoff units that enable the automated control of water. The **Triple+** Central Monitoring Station is the only service of its kind in the market to protect an unlimited number of systems from a single dashboard.

OUR PARTNERS Leading insurance and property management companies, plumbing firms and HVAC contractors have already partnered with **Triple+** to reduce the number of incidents and high cost of water leak damage.

Triple+ end-to-end services are available worldwide and the company holds offices in the USA, Canada, Russia and Israel.
