Property Managers Solutions

Water Leak
Damage Detection
and Prevention

PREVENT YOUR NEXT WATER LEAK DAMAGE

THE CHALLENGE

Water damage from leaks and floods is the biggest headache for your property management company. They occur often and are especially problematic when a vacant property gets flooded or tenants fail to detect a leak for months until the odor of mold starts to permeate or the water bill suddenly skyrockets.

THE RESULT

Disgruntled tenants may have to relocate while renovations take place; unhappy property owners lose profits as renovations and mold remediation run into thousands of dollars and your reputation as a top-notch property management company could be at stake.

Triple+

- Wireless and needs no infrastructure to operate.
- All devices are installed in reinforced enclosures to meet harsh environmental conditions when located outdoors.
- System provides notifications in real-time, immediate alerts.
- Triple+ central monitoring station sends alerts through APP or computer when leaks, abnormal water usage or low battery levels are detected and has remote action capability.
- Detects water leaks in areas prone to leaks and floods including machine rooms, elevator shafts, risers and central water heaters, fan coils, basements and parking areas.

Triple+ Smart Systems

About Us

Triple+ is an innovative and leading manufacturer and marketer of products and services within the IoT (Internet of Things) arena. Triple+ offers ground-breaking solutions for water leak damage prevention in small to large-scale properties.

OUR GOAL

To protect the property of our residential, commercial and property management customers, as well as prevent costly water leak damages, increase operational efficiency and improve personal safety.

Wear and tear, frozen pipes, overflow and careless water usage in residential and office buildings, smart irrigation and water leak prevention, are the

main causes of water damage. Billions are spent annually in fixing damages caused by water leaks and the tremendous waste of water is something we can't afford to happen as droughts occur more frequently. Damp conditions also breed mold spores which are a health hazard.

WHAT WE SOLVE

OUR MARKET-PROVEN SOLUTIONS & SERVICES

The **Triple+** line of products is based on proprietary technologies. This includes battery operated, wireless water leak sensors, repeaters, irrigation controllers, hubs and shutoff units that enable the automated control of water. The **Triple+** Central Monitoring Station is the only service of its kind in the market to protect an unlimited number of systems from a single dashboard.

OUR PARTNERS

Leading insurance and property management companies, plumbing firms and HVAC contractors have already partnered with **Triple+** to reduce the number of incidents and high cost of water leak damage.

Triple+ end-to-end services are available worldwide and the company holds offices in the USA, Canada, Russia and Israel.
